July 1, Wednesday

8:30-22:00   **Registration,** Holiday Inn Express Hangzhou Grand Canal-1st floor

July 2, Thursday, Morning

8:30-11:30   **Registration,** Lecture Hall, Cunzhong Building

8:30-8:50   **Opening Ceremony**

           Chairman: Nanqing Ding,

8:50-9:20   **Photograph Taking**

Plenary Meeting

Chairman: Masahisa Sato

9:20-10:00   Pu Zhang, Shanghai Jiaotong University, China

           TBA

10:00-10:20   Tea Break

Chairman: Quanshui Wu

10:20-11:00   Kiyoichi Oshiro, Yamaguchi University, Japan

           The Faith conjecture and related subproblems

11:05-11:45   Nam Kyun Kim, Hanbat National University, South Korea

           On extensions of rings with skew Hochschild 2-cocycles

11:50-12:50   Lunch

July 2, Thursday, Afternoon
Section Meetings

Section 1,   Classroom 309

Chairman: Hiroaki Komatsu

14:00-14:30   Mohammad Ashraf, Aligar Muslim University, Indian

           On n-derivations in rings and related structures

14:35-14:55   Jianlong Chen, Southeast University, China

           Moore-Penrose inverse and Drazin inverse of some elements in a ring

15:00-15:20   Gaohua Tang, Guangxi Teachers' Education University, China

           System of Formal Linear Equations and Zero-divisor Graphs of Formal Matrix

Rings

15:25-15:45   Deren Luo, Hunan Normal University, China

Homological algebra and (m,n)-cluster tilting in n-abelian categories

15:45-16:00   Tea Break

Chairman: Diming Lu

16:00-16:30   Cosmin Roman, The Ohio State University, Romania

On rudimentary rings

16:35-17:05   Yiqiang Zhou, Memorial University of Newfoundland, Canada
Clean rings and their variants

17:10-17:30   Jung Wook Lim, Kyungpook National University, South Korea

On S^*_w-Noetherian domains

Section 2,   Classroom 305

Chairman: Chengming Bai

14:00-14:30   Claus Haetinger, Centro Universitário Univates, Brazilian

Semigroup ideals and permuting 3-derivations in prime near rings

14:35-14:55   Hiroaki Komatsu, Okayama Prefectural University, Japan

On the generalized derivations of bimodules

15:00-15:20   Huadong Su, Guangxi Teachers Education University, China

The Diameter of Unit Graphs of Rings

15:25-15:45   Yanhua Wang, Shanghai University of Finance and Economics, China

The automorphism group of some noncommutative algebras

15:45-16:00   Tea Break

Chairman: Hideto Asashiba

16:00-16:30   Tsiukwen Lee, Taiwan University, Taiwanese

Invariant polynomials of Ore extensions by skew derivations

16:35-17:05   Jiaqun Wei, Nanjing Normal University, China

Relative singularity categories, Gorenstein objects and silting theory

17:10-17:30   Weiqing Li, Hunan Normal University, China

On Global C-dimensions

Section 3,   Classroom 307

Chairman: Sei-Qwon Oh

14:00-14:30   Shuanhong Wang, Southeast University, China

TBA

14:35-14:55   Jungmiao Kuo, Chung-Hsing University, Taiwanese

                      On the structure of a partial Galois extension

15:00-15:20   Sujuan Zhang, Shijiazhuang Tiedao University, China

                      Some remarks on localization in Hom-computable coalgebras

15:25-15:45   Xuerong Fu, Beijing University of Technology, China

                      Some remarks on Gorenstein coalgebras

15:45-16:00   Tea Break

Chairman: Tai Keun Kwak

16:00-16:30   Hideto Asashiba, Shizuoka University, Japan

                      Cohen-Montgomery duality for bimodules and its applications to

                      equivalences given by bimodules

16:35-17:05   Libin Li, Yangzhou University, China

                      The automorphism group of representation ring

17:10-17:30   Qingnian Pan, Huizhou University, China

                      Generalized Quasitriangle Hopf algebra

18:30-20:30   **Banquet**

July 3, Friday, Morning
Plenary Meeting

Chairman: Yingbo Zhang

8:30-9:10   Claus Michael Ringel, Fakultaet fuer Mathematik, Universitaet Bielefeld, German

The submodules of length 2: a first encounter of representation theory and algebraic geometry

9:15-9:55   James Gillespie, Ramapo College of New Jersey, United States
AC-injective chain complexes

9:55-10:10   Tea Break

Section Meetings

Section 1,   Classroom 309

Chairman: Jun Hu

10:10-10:40   Tai Keun Kwak, Daejin University, Korea

A generalization of NI rings

10:45-11:15   Yuan Lin Li, Brock University, Canadian

On *-clean group rings II

11:20-11:40   Samruam Baupradist, Chulalongkorn University, Thai

More characterizations of dedekind domains and V-rings

Section 2,   Classroom 305

Chairman: Ryo Kanda

10:10-10:40   Zhixiang Wu, Zhejiang University, China

Rings whose simple modules are absolutely pure

10:45-11:15   Guodong Zhou, East China Normal University, China

Two results on Gorenstein projective modules

11:20-11:40   Hwankoo Kim, Hoseo University, Korea

Prüfer v-multiplication domains and valuation ideals, II

Section 3,   Classroom 307

Chairman: Hiroaki Komatsu

10:10-10:40   Chengming Bai, Nankai University, China

A framework for the study of the classical Yang-Baxter equation

10:45-11:15   Yuqun Chen, South China Normal University, China

Gröbner-Shirshov bases for extensions of associative and Lie algebras

11:20-11:40   Fahad Sikander, Saudi Electronic University, Indian

On large submodules

11:45-12:45   Lunch

July 3, Friday, Afternoon
Sight Seeing in West Lake

July 4, Saturday, Morning
Plenary Meeting

8:20-8:30   Welcome

Chairman: Nam Kyun Kim

8:30-9:10   Sergio Estrada, University of Murcia, Spanish

              Gorenstein flat and Gorenstein injective sheaves

9:15-9:55   Alina Iacob, Georgia Southern University, USA

              Gorenstein projective precovers

9:55-10:10   Tea Break

Chairman: Kiyoichi Oshiro

10:10-10:50   Li Guo,

              On Integro-differential algebras

10:55-11:25   Masahisa Sato , University of Yamanashi, Japan

              On Cartan matrix problem

11:30-12:30   Lunch

July 4, Saturday, Afternoon
Section Meetings

Section 1,   **Classroom 501**

Chairman: Yiqiang Zhou

13:30-14:00   Alveera Mehdi, Aligarh Muslim University, India

              Socles of isotype and balanced submodules

14:05-14:25   Larry Xue, Bradley University, USA

              On general Hirata-Azumaya Galois extensions

14:30-14:50   Fatemeh Dehghani-Zadeh, Islamic Azad University, Iranian

              (I, J)-Minimaxness and cofiniteness properties of generalized local

              cohomology modules

14:55-15:15   Haijun Cao,

              Weak Rigid Monoidal   Categories

15:15-15:30   Tea Break

Chairman: Toma Albu

15:30-15:50 Liang Shen, Southeast University, China

      A note on rings with the summand sum property

15:55-16:15 Jianyang Zhou, China University of Mining, China

      Groebner bases

16:20-16:40 Yangjiang Wei, Guangxi Teachers' Education University, China

      The unit groups of the quotient rings of the imaginary quadratic rings

16:45-17:05 TBA

Section 2, Classroom 201

Chairman: Mohammad Ashraf

13:30-14:00 Zhaoyong Huang, Nanjing University, China

      Relative Singularity Categories

14:05-14:25 Obara Daiki, Tokyo University of Science, Japan

      On the Hochschild cohomology ring modulo nilpotence of quiver algebras

      with quantum-like relations

14:30-14:50 Kota Yamaura, University of Yamanashi, Japan

      Higher APR tilting preserve n-representation infiniteness

14:55-15:15 Hailou Yao, Beijing University of Technology, China

      On simple connectedness of (*) -serial algebras

15:15-15:30 Tea Break

Chairman: Liangyun Zhang

15:30-15:50 Yizhi Chen, Huizhou University, China

      On decompositions of matrices over distributive lattices

15:55-16:15 Meimei Jiang, Nanjing University of Information Science and Technology，

      China

      π-Armendariz rings relative to a monoid

16:20-16:40 Yu Li, Huizhou University, China

      Linear bases for free Lie algebras and pre-Lie algebras

16:45-17:05 TBA

Section 3, Classroom 202

Chairman: Chan Yong Hong

13:30-14:00 Jun Hu, Zhejiang University, China

On involutions in Weyl groups and a conjecture of Lusztig

14:05-14:25   Mohammad Shadab Khan, Aligarh Muslim University, Indian

A note on d-algebras with generalized derivations

14:30-14:50   Mohd. Arif Raza, Aligarh Muslim university, India

Strong commutativity preserving skew derivations in semiprime ring II

14:55-15:15   Cagri Demir, Ege University, Turkey

Pair of generalized derivations with commuting values on Lie ideals of prime rings

15:15-15:30   Tea Break

Chairman: Sergio Estrada

15:30-15:50   Ashok Ji Gupta, Indian Institute of Technology(BHU), Indian

Endomorphism rings of Pseudo projective modules

15:55-16:15   Zenghui Gao, Nanjing University, China

Weak injective and weak flat complexes

16:20-16:40   Qiuhui Mo, Huizhou University, China

Groebner-Shirshov bases and embeddings of algebras

16:45-17:05   TBA

17:40-19:00   Dinner

July 5, Sunday, Morning
Plenary Meeting

Chairman: Fang Li

8:30-9:10 Shiping Liu, Universitéde Sherbrooke, Canada

Homological dimensions of simple modules over semiperfect rings

9:15-9:55 Bgyng Gyun Kang, POSTECH, South Korean

Krull dimension of the power series ring over nonSFT domains

9:55-10:10 Tea Break

Section Meetings

Section 1, Classroom 309

Chairman: Jianlong Chen

10:10-10:40 Jiafeng Lü, Zhejiang Normal University, China

Yoneda algebras of piecewise-Koszul algebras

10:45-11:05 Guixin Deng, Guangxi Teachers Education University, China

On the depth distribution of linear codes over Z_4

11:10-11:30 Ghulam Mohammad, Aligarh Muslim University, Indian

A class of constacyclic codes over Z_4+uZ_4

11:35-11:55 TBA

Section 2, Classroom 305

Chairman: Libin Li

10:10-10:40 Lixin Mao, Nanjing Institute of Technology, China

Precovers and preenvelopes under change of rings

10:45-11:05 Manoj Kumar Patel, National Institute of Technology Nagaland, Indian

FI-semi-injective modules

11:10-11:30 Hirotaka Koga, Tokyo Denki University, Japan

Auslander-Gorenstein ring, Clifford extension, Frobenius extension

11:35-11:55 TBA

Section 3, Classroom 307

Chairman: Gangyong Lee

10:10-10:40 Gongxiang Liu, Nanjing University, China

Quasi-Frobenius-Lusztig kernels

10:45-11:05	Seiqwon Oh, Chungnam National University, Korea
	Poisson algebra related to quantum group
11:10-11:30	Fengxia Gao, Beijing University of Technology, China
	H-simple module algebras for eight-dimensional non-semisimple Hopf
	algebras
11:35-11:55	TBA
12:00-13:00	Lunch

July 5, Sunday, Afternoon
Section Meetings

Section 1,   Classroom 309

Chairman: Jiaqun Wei

14:00-14:30   Xianhui Fu, Northeast Normal University, China

Ideal approximation theory and its applications

14:35-14:55   Gangyong Lee, Sungkyunkwan University, Korea

On quasi-Baer modules

15:00-15:20   Nadeem ur Rehman, Aligarh Muslim university, India

On skew commuting mappings of semiprime rings

15:25-15:45   Nihan Baydar Yarbil, Ege University, Turkey

On certain functional identities of prime rings and Lie ideals

15:45-16:00   Tea Break

Chairman: Haiyan Zhu

16:00-16:20   Dr Rakeshwar Purohit,   Statics University College of Science

Mlsuudaipur, India

Property of near-ring

16:25-16:45   Weining Chen, Guangxi Teachers' Education University, China

The extension of a galois ring and some applications

16:50-17:10   TBA

17:15-17:35   TBA

Section 2,   Classroom 305

Chairman: Nurcan Argac

14:00-14:30   Jiangsheng Hu, Jiangsu University of Technology, China

14:35-14:55   Hiroki Miyahara, University of Yamanashi, Japan

Matlis duality for pseudocompact filtered algebras

15:00-15:20   Gang Yang, Lanzhou Jiaotong University, China

Almost split sequences for complexes via relative homology

15:25-15:45   Yunxia Li, Nanjing University, , China

Homotopy categories of strongly copure modules

15:45-16:00   Tea Break

Chairman: Claus Haetinger

16:00-16:20   Zhenzhen Gao, Beijing University of Technology, China

Grobner-Shirshov basis for the degenerate Ringel-Hall algebra of type F_4

16:25-16:45   Shanghua Zheng, Lanzhou university，China

Free involutive Hom-associative algebras and Poincaré-Birkhoff-Witt
Theorem

16:50-17:10   Xiaoxiang Zhang, Southeast University, China

Relative derived categories with respect to subcategories

17:15-17:35   TBA

Section 3,   Classroom 307

Chairman: Yuanlin Li

14:00-14:30   Wei Hu, Beijing Normal University, China

From stable equivalences to derived equivalences

14:35-14:55   Yahya Talebi, University of Mazandaran, Indian

On τ-H-supplemented modules

15:00-15:20   Ju Huang, Fujian Normal University, China

Recollements and mutations of a Leavitt path algebra

15:25-15:45   Jiwei He, Shaoxing University, China

Connected cochain DG algebras of Calabi-Yau dimension 0

15:45-16:00   Tea Break

Chairman: Alveera Mehdi

16:00-16:20   Nazia Parveen, Aligarh Muslim University, Indian

Some commutativity theorems for *-prime rings

16:25-16:45   Jian Cui, Anhui Normal University, China

*-Cleanness and *-regularity of rings

16:50-17:10   M. Pinar Eroglu, Ege University, Turkey

Annihilators on Co-commutators with Generalized Skew Derivations on Lie ideals

17:15-17:35   TBA

17:40-19:00   Dinner

July 6, Monday, Morning
Plenary Meeting

Chairman: Bgyng Gyun Kang

8:30-9:10   Toma Albu, Simion Stoilow Institute of Mathematics of the Romanian

Academy, Romanian

The conditions (C_i) in rings, modules, categories, and lattices

9:15-9:55   Lars Winther Christensen, Texas Tech University, Danish

Tate homology far beyond group algebras

9:55-10:10   Tea Break

Chairman: Nanqing Ding

10:10-10:50 Ryo Kanda, Nagoya University, Japan

Atom-molecule correspondence in Grothendieck categories with applications

to Noetherian rings

10:55-10:15 Closing Ceremony

11:30-12:45 Lunch

July 6, Monday, Afternoon

14:00-17:00 Sight Seeing in Hefang Street

17:40-19:00 Dinner
