Organizing Committee of The Symposium on Ring Theory and Representation Theory

The Symposium on Ring Theory and Representation Theory has been held annually in Japan and the Proceedings have been published by the organizing committee. The first Symposium was organized in 1968 by H. Tominaga, H. Tachikawa, M. Harada and S. Endo. After their retirement a new committee has been formed in 1997 to manage the Symposium, and its committee members are listed in the web page

<http://www.ring-theory-japan.com/ring/h-of-ringsymp.html>.

The present members of the committee are H. Asashiba (Shizuoka Univ.), T. Nishinaka (Univ. of Hyogo), S. Kawata (Nagoya City Univ.) and I. Kikumasa (Yamaguchi Univ.).

The Proceedings of each Symposium are edited by the program organizer. If you wish to have these Proceedings, please ask the program organizer of each Symposium or one of the committee members.

For information on ring theory and representation theory of groups and algebras (including schedules of meetings and symposiums), as well as ring mailing list service for registered members, please refer to the following websites, which are edited by K. Yamaura (Univ. of Yamanashi):

<http://www.ring-theory-japan.com/ring/japan/> (in English)

The Symposium in 2019 will be held jointly with the 8-th China-Japan-Korea International Symposium on Ring Theory at Nagoya University from August 26 (Mon) to August 31 (Sat). Both will be held as the 19-th International Conference by Graduate School of Mathematics, Nagoya University. The program organizer is Masahisa Sato (Aichi University), and the local organizers are Osamu Iyama (Nagoya University) and Shigeto Kawata (Nagoya City University).
